

## **CURRICULUM VITAE**

Gianfranco Bosco, born in Militello V.C. (CT), January 16th, 1966, Italian citizen.

**Education:** 1990 Degree in Medicine and Surgery summa cum laude, University of Catania,  
1997 PhD in Peripheral Nervous System Physiopathology, University of Catania

**Academic career:** 1990-92 Research fellow, Department of Physiology, University of Catania  
1992 -96 Postdoctoral Fellow, Department of Physiology, University of Minnesota, Minneapolis;  
1997-98 Research Associate / Assistant Professor, Department of Physiology, University of Minnesota, Minneapolis;  
1998-2000 Research Associate / Assistant Professor, Department of Neuroscience, University of Minnesota, Minneapolis;  
2001-2004 Visiting Professor, Department of Neuroscience, University of Minnesota, Minneapolis;  
2000-2005 Researcher, Department of Neuroscience, University of Rome "Tor Vergata";  
2005-2013 Associate Professor, Department of Neuroscience and Department of Systems Medicine, University of Rome "Tor Vergata";  
2013- Full Professor, Department of Systems Medicine, University of Rome "Tor Vergata";

**Awards:** SIF award 1998

### **Teaching Experience**

Functional Neuroanatomy College of Biology University of Minnesota Minneapolis, MN USA

Human Physiology Degree in Medical Engineering University of Rome "Tor Vergata";

Human Physiology Medical School University of Tirane "Nostra Signora del Buon Consiglio" Tirane, Albany

Human Physiology Medical School University of Rome "Tor Vergata"

Human Physiology Degree in Sports Science and Technology University of Rome "Tor Vergata";

Practical Medicine II Medical School University of Rome "Tor Vergata";

Physiology of Exercise Degree in Physical Exercise and Health Promotion University of Rome "Tor Vergata";

Human Physiology Medical School (Degree taught in English) University of Rome "Tor Vergata"

### **Grants:**

**MIUR: PRIN 2004.** Research Unit: “Neural substrates and adaptive processes of internal models for physical and biological motion perception.“.

**MIUR: PRIN 2006.** Research Unit: “Neural basis of the internal model of gravity: functional relevance for manual interception of free-falling objects.

**MIUR: PRIN 2008.** Research Unit: “Predictive processes for manual interception and biological motion perception”.

**Italian Spatial Agency: DCMC Program.** Workpackages: PR-DCMC-GO-1B11\_2 - Posture and Movement, PR-DCMC-GO-1B11\_3 - Vestibular Mechanisms, PR-DCMC-GO-1B139 – Spinal Maps, PR-DCMC-GO-1B134 – Virtual Reality Protocols.

### **Academicianships**

Member of the elective board of the Department of Neuroscience of the University of Rome “Tor Vergata”

Member of the scientific board of the Center for Space Biomedicine of the University of Rome “Tor Vergata”

Member for the School of Medicine of the Curriculum Design Committee of the University of Rome "Tor Vergata"

Secretary member of the council of the Department of Systems Medicine.

### **Peer Reviewing**

Peer reviewer for the following indexed journals:

1) Journal of Neuroscience 2) Journal of Neurophysiology 3) Experimental Brain Research 4) Frontiers in Neuroscience 5) PLOSone

## PUBLICATIONS

### Publications on indexed journals
