### Social skills and competences

#### Pedagogical Portfolio

I started my teaching experience soon after I graduated in Medicine when I served a tenure position in Clinical Immunology and Infectious Diseases in the School of Specialty in Paediatrics at the University of Rome La Sapienza, 1980-83.

In 1987 I was appointed Associated Professor of Paediatrics at the University of Rome Tor Vergata after I won the National Competition. Since then I have been in charge of:

- the Course of General Paediatrics for the students of the Faculty of Medicine
  - length of 3 month ,20 credits
- the Course of Clinical Immunology for the School of Specialty in Paediatrics
  - length 2 weeks
- The Course of Clinical Immunology for the School of Specialty in Haematology
  - Length 2 weeks

Since 1990 as Visiting Professor in the Dept. of Immunology of the Karolinska Institute I have supervised MS and 4 PhD students.

Since 1995 to 2001 I have been appointed as tutor in the PhD Program in Immunology of the University of Rome Tor Vergata. In this activity I have supervised several PhD students.

In November 2000 I have been appointed Professor and Chairman of the Dept of Paediatrics at the University of Rome Tor Vergata where I am supervising all the teaching activities of the undergraduate course in Paediatrics of the Faculty of Medicine as well as the Faculty of Nursing.

I am also in charge of teaching Paediatrics for School of Specialty in Paediatrics

Since 2001 I was the Coordinator of the PhD Program in Molecular Paediatrics 4 PhD students yearly. Since 2006 I am the Coordinator of the Interfaculty PhD Programme in Immunology and Biotechnology

The teaching activity described above includes all examinations required to certify the courses. The examination are both written and oral (circa 200 every year)

Following the Italian Academic system during all these years I have also been in charge of tutoring a large number of Medical Students to perform their final Thesis

During all my academic career I have been organizing a number of Courses for students, MDs, PhD as well as International Graduate Courses , Seminars and Conferences. It is worth noting the organization of 5 International Consensus Workshops on Pediatric HIV Infection. This activity has produced highly quoted publication in National and International Peer reviewed Journals (see list of Publication) and has been an important instrument for the development of International collaborations in the field of Paediatric AIDS

**Organisational skills and  
competences**

Scientific Collaboration and external research grants

I have been coordinating and/or been the principal Investigator of a number of Research Projects in the different Institutions supported by grants from EU Commission , NIH, Italian Ministry of Health, Italian Ministry of Education. The total amount of grants earned during my entire research activities is approximately € 7.000.000
